

Dear friends,

Kindersave Paediatrics provides paediatric consultation services to patients at various locations in WA and rest of Australia. Face-to-face and Telehealth appointments are offered for paediatric patients and their families. We have been receiving referral letters from parents in regional WA and towns in eastern states with requests for Telehealth consultation. Physical examination component of comprehensive care is not possible for Telehealth consultations. In order to ensure patient safety and quality during conduct of Telehealth we request GP colleagues to include in their referral letter physical examination details as outlined below.

Referral letter can be uploaded by parent on our website (preferred method). GP practices can send referrals to email ID ([paediatrics@kcamsaus.com](mailto:paediatrics@kcamsaus.com)) or to our Healthlink ID '**kcamsaus**'. Please encourage parents to contact Kindersave clinics via email ([paediatrics@kcamsaus.com](mailto:paediatrics@kcamsaus.com)) to book an appointment.

*Details required in GP referral letter for appointment with Kindersave Paediatrics:*
